B.Tech

Examination	University	Institute	Year	CPI/%
Graduation	JSSATE	JSSATE	2024-28	8.05
Intermediate/+2	CBSE	KAMM scholars School	2022-24	76.8
Matriculation	CBSE	KAMM scholars School	2021-22	98.00

PROJECTS

- **Financial Market Analysis and Algorithmic Trading** (Apr'25-May'25)
 - Developed end to end systems where I analyzed Indian Stock market data of various stocks, Implemented portfolio optimization techniques, made algorithmic trading strategies and backtested them on historical data, Backtested trading strategies that significantly outperformed buy-and-hold benchmarks on Adani stock (800x higher returns in simulations)
- **AI Model for Bank Transaction Fraud** (July'25-Aug'25)
 - Trained a neural network From scratch on over 90 lakh bank transaction data in order to flag fraudulent transactions. Did in dept analysis and feature engineering for best result. Able to catch 4 out of every 5 fraud Transaction (Highest in that kaggle data repo).
- **Food Connect** (Nov'24-Nov'24)
 - Created a full stack web application for donating surplus food to the needy and made it to grand finale of college hackathon.
- **Churn Prediction for Netflix** (Sep'25-Present)
 - Doing Exploratory Data analysis on open source Netflix Subscription Data and doing churn prediction about which user is likely to revoke their subscription

TECHNICAL SKILLS

- **Tools & Libraries:** Machine Learning, MATLAB, OpenCV, Numpy, Pandas, Tensorflow, Pytorch, torchaudio, torchvision, yfinance, backtrader, seaborn, MS office

WORK EXPERIENCE & INTERNSHIPS

- **Student | WorldQuant University** (Jan'25-Present)
 - Applied Data Science Lab
 - Created several projects involving data ingestion, exploratory data analysis, regression, and logistic models.
 - Projects include - Housing market prediction in Argentina, Air quality in Nairobi, Bankruptcy in Europe, Earthquake Prediction in Nepal, Market volatility forecasting in BSE (ongoing) etc.

HOBBIES & EXTRA-CURRICULARS

- **CORE TEAM MEMBER** of the official Dance Society of College
- Always Fascinated by Financial Markets and love to work on the projects that includes the intersection of finance and Technology
- Other hobbies include playing Cricket, Football and making some music beats and experimenting with new ai tools
- One thing that fascinates me is inclusion of pure ai models in financial markets that make decisions with 0 human input
